

CORRIGENDA (25 May 2022)

Global tuberculosis report 2021

ISBN 978-92-4-003702-1 (electronic version)

ISBN 978-92-4-003703-8 (print version)

Page 1, lines 12–13

Delete: About a quarter of the world’s population is infected with *M. tuberculosis*.

Insert: About a quarter of the world’s population has been infected with *M. tuberculosis*.

Page 26, lines 39–44

Delete: Priorities include a vaccine to lower the risk of infection, a vaccine or new drug treatment to cut the risk of TB disease in the approximately 2 billion people already infected, rapid diagnostics for use at the point of care, and simpler, shorter treatments for TB disease.

Insert: Priorities include a vaccine to lower the risk of infection, a vaccine or new drug treatment to cut the risk of TB disease in people already infected, rapid diagnostics for use at the point of care, and simpler, shorter treatments for TB disease.

Page 31, lines 13–16

Delete: About a quarter of the world’s population is infected with *M. tuberculosis*, equivalent to about 2 billion people. A relatively small proportion (5–10%) will develop TB disease during their lifetime.

Insert: About a quarter of the world’s population has been infected with *M. tuberculosis*, equivalent to about 2 billion people. A relatively small proportion will develop TB disease during their lifetime.
